Where We Operate

Sales, Engineering, Manufacturing & Logistics
locations to suit your global requirements

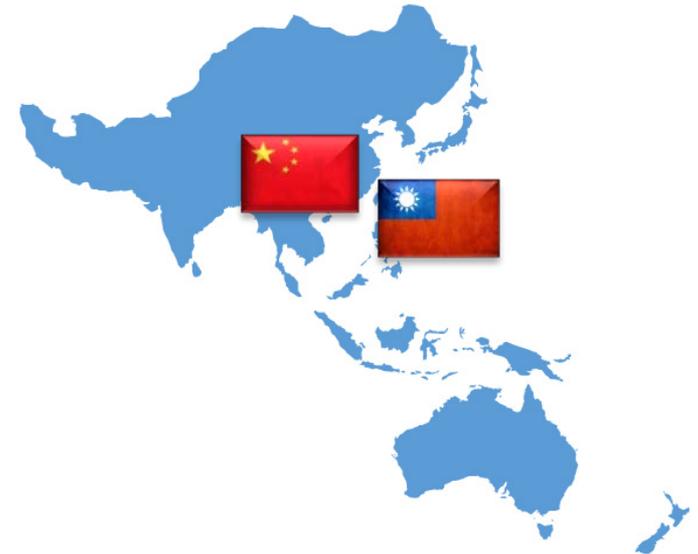

Manufacturing Facilities

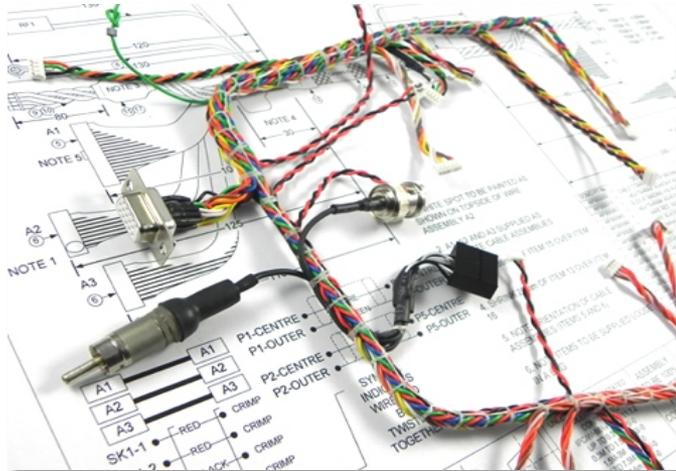

- » New Romanian facility opened October 2016 to complement our UK and Far East manufacturing locations
- » Romania has independent ISO 9001:2015 and UL approval
- » UK facility is AS9100D certified for military, defence and security applications
- » Offers FastTrack prototyping service
- » Romania runs high levels of automation for manufacturing efficiency
- » Both operate cell manufacturing and real-time shop floor data collection (SFDC) to drive efficiency

Taiwan

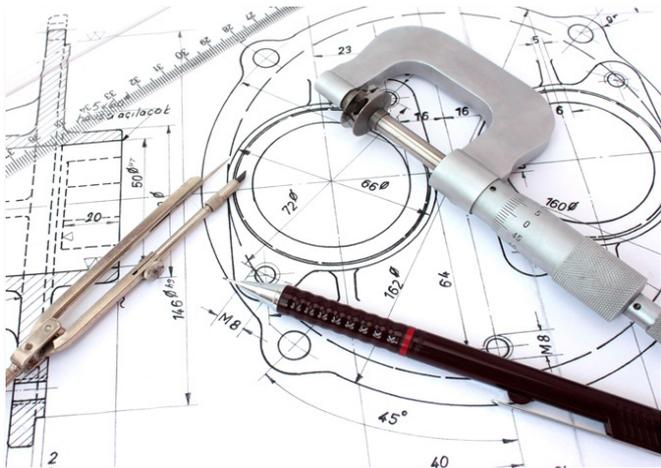

- » With a presence in Taiwan since 2002, the office serves as our Asia Pacific headquarters and the gateway for China
- » GTK team of 10 employees including purchasing, engineering and project management
- » Manage strategic supplier relationships
- » Responsible for Asian OEMs & subcontractors where production has migrated from Europe
- » China-based lineside quality engineer

Technical Expertise

- » Engineering teams in the UK, Romania and Taiwan offices
- » Dedicated technical experts for each product family
- » Capable of adding value through early involvement in the New Product Introduction (NPI) process
